That Strike Fever Hits Paris, Too; Music Hall Artists There Walk Out

PARIS, Oct. 1 .- Music hall strike leaders say the present contest in which they engaged with the proprietors is "going to be a life and death struggle." At a meeting of the federation a resolution was passed providing that any member who disobeys the strike order will be ostracized for ten years.

On the other hand, the union of dramatic and lyrical artists has launched an appeal that persons not members of the federation, or even independent federationists, who are willing to work, should not be interfered with.

A general strike of the industries of the stage was called yesterday by the music hall artists and employes.
